Nova Robotics - NovaBot X2 Service Manual

Release: The NovaBot X2 was released in September 2025. It is the successor to the NovaBot X1 and weighs 4.2 kg.

Water resistance: The NovaBot X2 has an IP54 rating. It can survive splashes of water and rain, but it must not be submerged in water. Do not use it in swimming pools or bathrooms with running showers.

Battery and charging: The NovaBot X2 uses a 6000 mAh battery. On a full charge it runs for approximately 8 hours of normal use. A full charge takes 120 minutes using the 30V fast charger included in the box.

Warranty: The NovaBot X2 comes with a 24 month standard warranty. This can be extended up to 48 months if the extension is purchased within 60 days of the original purchase date.

Price: The NovaBot X2 is priced at 49,999 rupees in India. Educational institutions receive a 15 percent discount on bulk orders of 10 units or more.

New features: Voice control now supports 9 Indian languages. The X2 also introduces a self-emptying dustbin and automatic carpet-boost suction.
